

# Water Fuel Cell

Hydrogen Fracturing Process is environmentally safe. The Hydrogen Fracturing Process is design variable to retrofit to any type of energy consuming devise since the Hydrogen Gas Gun can be reduced to

the size of an auto spark plug or a gas injector port of a fighter aircraft or enlarged to form a rocket engine. Prototyping determines operational parameters. The Hydrogen Fracturing Process is registered and certified un-

der the Patent Cooperation Treaty Act via foreign grant license #492680 issued July 10, 1989 and foreign grant license #490606 issued Nov. 15, 1988 by the United States of America as a U.S. patent #44,826,581 issued May 2, 1989. Other PCT patent applications are pending allowances worldwide.
