

A Miniature Controllable Sun

How is it that a seed of a plant can produce atoms, undergo molecule structuring, support chemical processes that sustains life?

- The Sun, soil nutrients, and water are only growth stimulators.

How is it that that a baby in the mother womb undergoes atomic structuring to give us life?

- The child mother does not consume enough food nor absorb enough sun rays to create not even one atom of the new born.

How is it mass is being created in our universe?

- And why is it that planets continue to move in orbital pathways?

What fuels the universe?

- The universe is still expanding while being maintained.

Where does fire come from since atoms are neither created nor destroyed during the burning process?

Why is lighting associated with water molecules in air?

And what fuels hurricanes ... is it the **Water Molecule**?

Einstein $E=MC^2$ equation shows that the energy comes from somewhere beyond our physical universe.

Is "**Particle Oscillation**" as a "**Energy Generator**" the way to tap into this universal energy source to fuel our economy?

And if so, by what means?

The WFC Technique of "**Easer**" is, now, open for scientific dissertation ... and is explained in the following way:

*In the annals of scientific endeavors, the prior art only subscribed in using the following scenarios to cause "**Particle Oscillation**" as a "*

Energy Generator":

particle impact to produce kinetic energy;

current flow to manifest light energy by which we see from an incandescent light bulbs;

electromagnetic flux-energy to ionize gases inside an fluorescent tube exposed to an electrical power line;

photon energy absorption to activate a laser device by the use of a strobe light;

chemical stress to cause combustion by rearranging molecular structures;

redirecting and splitting light transmission through optical prismatic structures, and the atomic absorption and re-radiation of acoustical energy for sound-box amplification.

*In reference to **WFC Technology of Inventions**, "**Electrical Stress**" propagated by "**Opposite Voltage Polarity**" is utilized as a "**New**" way to cause "**Particle Oscillation**" as a "**Energy Generator**"*

*... giving way to "the **Birth of New Technology**"*

*... such as, "**The Optical Thermal Lens**" called "**Easer**"*

*... tapping into "**Universal Energy**" via "**Voltage Tickling of State Space**" under **resonant conditions**.*
