Instructions - Cause of Death

The Cause of Death means the disease, abnormality, injury, or poisoning that caused the death, and the mode of dying, such as cardiac or respiratory arrest, shock, or heart failure.

In PART I, the immediate cause of death is reported on line (a). An immediate condition, if any, which gave rise to the cause is reported on line (b), (c), and (d). The underlying cause should be reported on line (e). No entry is necessary on line (f). If the immediate cause of death on line (a) is a trauma, it should be followed by the line (b) entry describing the trauma of the event. Only one cause or death should be entered on a line. Additional lines may be added if necessary. Provide the best available information of the interval between the onset of each condition and death. Do not leave the interval blank. If unknown, so specify.

In PART II, enter other important diseases or conditions that may have contributed to death but did not result in the underlying cause of death given in PART I.
