Instructions - Cause of Death

The Cause of Death means the disease, abnormality, injury, or poisoning that caused the death, and the mode of dying, such as cardiac or respiratory arrest, shock, or heart failure.

In PART I, the immediate cause of death is reported on line 1. An immediate condition, if any, which gave rise to the cause is reported on line 2, and (if) the underlying cause should be reported on line 3. No entry is necessary on line 4. List and (if) the immediate cause of death on line 1 and the underlying cause on line 3. Enter the mode of dying on line 4. Additional lines may be added if necessary. Provide the best available information for each line. Do not leave the interval blank. Do not leave the interval blank. Do not leave the interval blank. Do not leave the interval blank.

In PART II, enter other important diseases or conditions that may have contributed to death but did not result in the underlying cause of death given in PART I.
